

Best Emerging Market Debt Fund – HFM European Hedge Fund Performance Awards

June 6, 2019

The Waha CEEMEA Credit Fund was awarded the “Best Emerging Market Debt Fund”, at the prestigious HFM European Hedge Fund Performance Awards which took place in London, United Kingdom in June 2019.

The **HFM European Performance Awards** are the most important and influential awards in the European hedge fund calendar, with the best performing European funds all vying for industry-wide recognition and celebration. Producing strong long-term results, the Waha CEEMEA Credit Fund primarily invests in hard currency fixed income instruments from Emerging Market corporate and sovereign credits in the CEEMEA region.

The fund employs a Long/Short strategy combining macro research and bottom-up analysis with a valuation overlay to create a portfolio of relative value trades. Investment themes and opportunities are identified primarily through both macroeconomic analysis at the global, regional and sovereign level. This is complemented with a rigorous in-house risk governance framework, adopted to minimise risk and maximise returns.
