

### **Best Emerging Markets Fund - Context 365 Awards**

*October 3, 2019*

The Waha MENA Equity Fund was voted and awarded “Best Emerging Markets Fund” of the year at the prestigious annual Context 365 Awards, which took place in New York, United States of America (USA) in October 2019.

The Context 365 Awards acknowledge the industry's top fund managers who have stood out for their process and performance contributions to the industry over the year. Leading fund managers that have exceptional strategies with outstanding processes and performance are identified and celebrated.

The fund invests in a diversified portfolio of companies spread across the MENA regional equity markets; it follows an absolute return strategy employing a fundamental bottom up approach with a macro and technical overlay. The security selection exercise involves in-house fundamental research and a rigorous risk governance framework, leverage of sell-side research, and relationships with companies in MENA in order to develop internal views on value and/or growth prospects for a particular equity security.
